

**You choose the bird.  
We give you the wings.**

## **Sustainable collation shrink films for standout appeal in the competition for attention on the shelf**

RKW Multipack helps you be highly visible on the shelf. No matter if your top brand appears proud as a peacock, your retail brand is modest as a sparrow, your mee-too product mimicks like a cuckoo, or you want to highlight your special offers loud as a rooster, we deliver the perfect solution. RKW Multipack makes on-the-go consumption easier by providing sustainable multipack solutions with focus on maximum usage of recycled content, high-level protection, EGPTM printing, personalized and fast technical support.

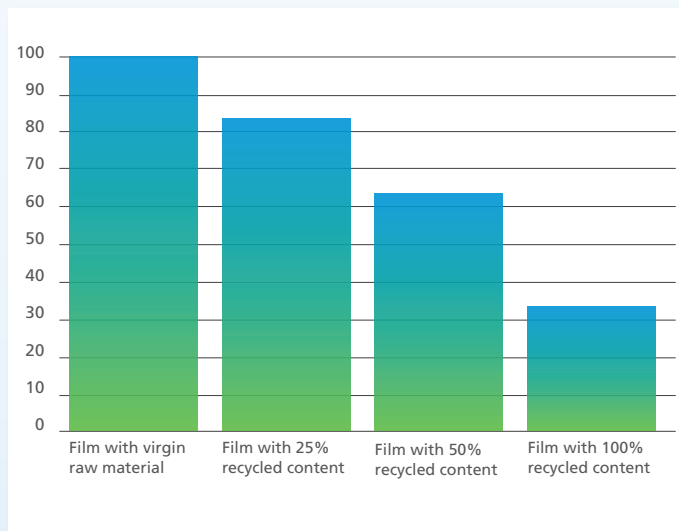

## Up to 70% lower carbon footprint with RKW Multipack films

RKW offers brand owners excellent multipack solutions for a stronger conversion rate at the point of sale. RKW Multipack films can be used flexibly for bundling several types of primary packaging: for bottles, cans, Tetra Paks or bricks. For glass, PET, aluminum or cartons. For all pack formats and shapes.

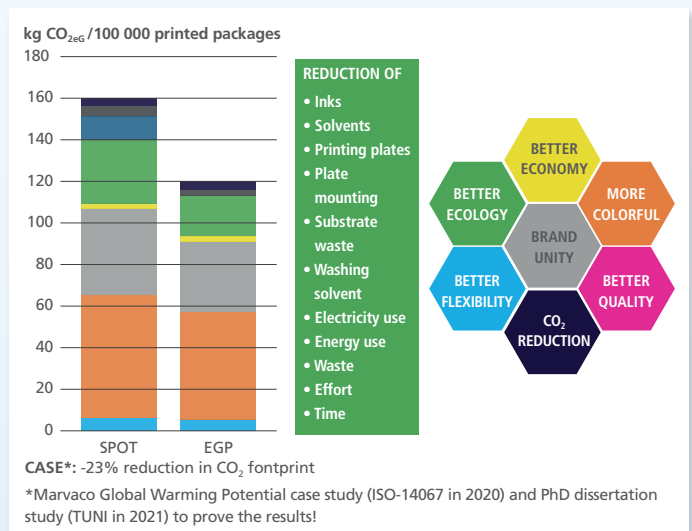

RKW Multipack films are suitable for the EGP™ printing technology, which reduces the complexity of the printing process, offers better results and is more sustainable through reduction of energy use, material use and waste production.

### RKW Multipack Carbon Footprint (%)
